August 1, 2012

To Whom It May Concern:

With regards to the Buy America and Buy America Act, we at Fin Pan Incorporated would like to take the time to let you know that almost all of our products that we manufacture are made right here in Ohio. These products include our ProTEC and Util-A-Crete concrete backer boards, PreFormed and ProPan tileable shower pans, PreFormed Niches, PreFormed Seats, PreFormed Curb Overlays, and PreFormed Slopes. Also, all of the materials that go into making our products are manufactured or mined here in the USA (from our foam supplies to our adhesives, to our waterproofing as well as our woven fiberglass mesh, lightweight aggregate and cement).

Our ProPanel light weight waterproof backer board is the only product that we have that is not made in the US and it is made in our, American owned, facility in China

We are a family owned and operated corporation, and we take pride in manufacturing top quality materials right here in the US.

If you should need any information on any of our products, please visit our web site at www.finpan.com or give us a call at 1-513-870-9200.

Best Regards,
